

Installation Instructions

Elevate™ Adjustable Containment Brush Kit

WARNING: Improper use of this product may lead to serious injury. Read and understand all instructions for proper installation and use of this product.

WARNING: Use appropriate personal protection equipment and caution when cutting polycarbonate panels.

Intended Use:

The Panel Brush Kit is intended to be used in an indoor data center environment.

Properly installed, the kit will limit air leakage for applications requiring cabling to pass through a 6mm double wall polycarbonate panel.

Tools Required:
Utility Knife

Installation Instructions:

1. Use a utility knife to cut-out an opening for the brush kit on a double wall polycarbonate panel per the dimensions given in Table 1.

Included Hardware:

(2) Vertical Edge Protectors 

(2) Brush Assemblies.

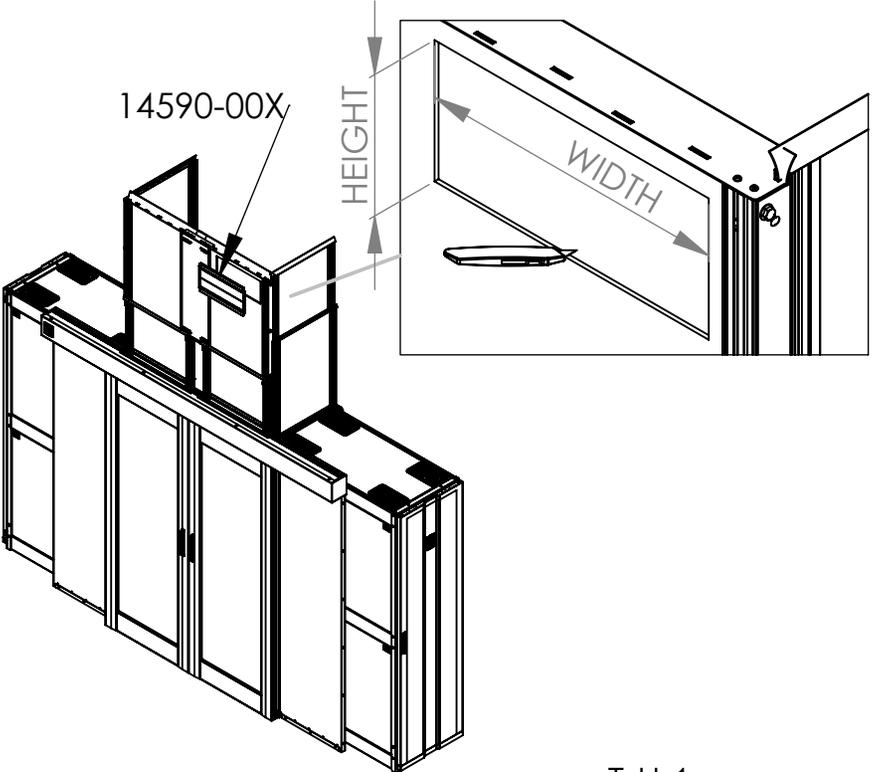

Table1

Part Number	Brush Panel Cut-Out Dimensions			
	Width		Height	
	in	mm	in	mm
14590-000	16.25	[413]	7.25	[184]
14590-001	22.25	[565]	7.25	[184]
14590-002	28.25	[718]	7.25	[184]

Installation Instructions

Elevate™ Adjustable Containment Brush Kit

Installation Instructions (Continued):

2. Install the vertical edge protectors on each side of the opening as shown in Figure 2.
3. Install the lower brush assembly onto the panel as shown in Figure 3. In a similar manner, install the upper brush assembly into the upper edge with the bristles directed downward.
4. Push the vertical edge protectors toward the brush ends to close any gaps.
