DVR Security Enclosures

DVR Security Enclosures support and protect digital video recorders (DVRs) and other electronic security equipment outside equipment rooms to help prevent damage, theft or vandalism. Use CPI's DVR Security Enclosures to provide the critical security needed for your electronic equipment.

Safely Secure your Digital Video Recorders and Servers:

- Heavy-duty steel enclosures available in three sizes: small, medium and large
- Place on a countertop or shelf, or wall-mount the large enclosure
- The large enclosure can support 19"W rack-mount equipment
- Equipment is accessed through a locking front door and a removable top panel
- Optional plexiglass window lets you see equipment indicators
- Cables enter through knockouts in the back of the enclosure
- Accessory fan kits are available to provide added ventilation for equipment
