

# Product Information Sheet

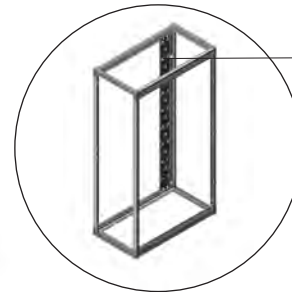

## CABLE LASHING BRACKET FOR F-SERIES TERAFRAME™ CABINET

The Cable Lashing Bracket provides attachment points for fastening cable bundles. Quickly secure cable bundles to the bracket using CPI's Saf-T-Grip® Reusable Cable Straps or other cable ties.

- The bracket is C-shaped, 5.125"W x .7"D (130 mm x 17 mm) and features three columns of inverted U-shaped tabs to fasten multiple cable bundles
- Cable bundles attach to the front of the bracket with CPI Saf-T-Grip Reusable Cable Straps or other cable ties – simply insert the straps over the open tabs or lace ties through slots
- Brackets attach to the cabinet frame and require a minimum 5" (127 mm) equipment mounting rail setback when positioned behind the rear equipment mounting rails
- Multiple brackets can be attached along the side of the frame between equipment mounting rails
- Select the Cable Lashing Bracket to match the height (RMU) of the cabinet
- Designed for use with Gen 2 F-Series TeraFrame Cabinets only

For assistance in configuring your TeraFrame Cabinet, contact Technical Support at 800-834-4969 or visit CPI's Product Configurator at [www.chatsworth.com/configurator](http://www.chatsworth.com/configurator).
