

1. The four-post or flush mount Keyboard+Tray mounts to any rack or cabinet and requires only 1 RMU of available space. (Illustration shows rack with 3" channels and Keyboard slid forward.)
2. When you select the mounting location, consider the cable distance between the tray and the active equipment you have installed. Also, your desired mounting height will depend on whether you plan to use the keyboard while sitting or standing.
3. Position the tray between the rack channels at your desired mounting location.
4. Use the #12 screws provided to attach the tray to the rack.
5. Attach the rear brackets to the rack using the # 12 screws.
6. Place the keyboard on the tray.
7. Route keyboard cable behind the cable retention post as shown in detail A.
8. Use the cable tie provided to hold keyboard cable to wire manager.
9. Remember to send in the warranty card or fill out the product registration online at www.chatsworth.com/prodreg.html.
