TELECOMMUNICATION ENCLOSURES

The Patch Panel Enclosure for 8"D (200 mm) raised access floors are a 7"D (180 mm) consolidation point enclosure suitable for use in air handling spaces under 8"D (200 mm) raised access floors. The enclosure may be supported from the raised floor pedestals with included brackets and uses the 2' x 2' raised access floor tile as a lid.

Each enclosure has four edge-protected cable access ports that include fire rated foam sealing kits. Two styles are available with standard or large cable access ports. Equipment is supported on facing pairs of 19"W x 4 RMU high mounting rails (8 RMU total) that pivot to provide easy access to the front and rear of equipment. Cable tie points are included within the enclosure. Use Saf-T-Grip® Cable Management Straps to secure cables.

■ Cable Entry/Exit
- A0822-RF Enclosures have (4) 6-3/4"W x 2"H (171 mm x 50 mm) edge-protected cable access ports
- 13772-001 Enclosures have (2) 14-3/4"W x 3-1/4"H (374 mm x 82 mm) and (2) 6-1/4"W x 7"H (158 mm x 180 mm) edge-protected cable access ports. Ideal for Cat 6a UTP Cable
