

Product Information Sheet

ZERO SPACING BAYING KIT FOR F-SERIES TERAFRAME™ CABINET

The Zero Spacing Baying Kit includes M6 hardware to bay two Gen 2 F-Series TeraFrame Cabinets side-by-side with or without side panels for simplified installation when no space is required between cabinets. If one or both side panels are omitted between cabinets, seal the gap using a Seal Kit (P/N 35081-000) to maintain thermal performance.

- Each kit includes four M6 screws, washers and nuts
- The hardware attaches cabinet frames side-by-side through holes near the corners of the frame on the frame uprights
- Cabinets can be bayed with or without side panels installed; side panels have matching holes for baying hardware; there is no space between bayed cabinets
- Cabinets must be the same height and depth
- Designed for use with Gen 2 F-Series TeraFrame Cabinets only

For assistance in configuring your TeraFrame Cabinet, contact Technical Support at 800-834-4969 or visit CPI's Product Configurator at www.chatsworth.com/configurator.

Zero Spacing Baying Kit installed
