AISLE CONTAINMENT FULL HEIGHT BLANKING PANEL

Full Height Blanking Panel is an optional accessory that is used with the Frame Supported Hot Aisle Containment (HAC) Solution to fill gaps between cabinets when a cabinet is omitted from the aisle/cabinet row.

- Use with Frame Supported Exhaust Duct (See 32990_CUT) to fill gaps when a cabinet is omitted from the aisle/cabinet row
- Contains air in the enclosed hot aisle between adjacent rows of cabinets
- Includes vertical and horizontal seals
- Fits snug against the sides of the adjacent cabinets
- 40" (1016 mm) wide translucent polycarbonate panel, can be trimmed to match exact width of the opening
- 2-1/8" (54 mm) wide steel side brackets are painted glacier white or black
- Order appropriate 1/4" (6 mm) floor installation hardware separately

Use one Full Height Blanking Panel (back and front shown) to fill gaps between cabinets in a cabinet row.

Full Height Blanking Panels attach to the Frame Supported Exhaust Duct and the floor to fill gaps between cabinets and at the end of cabinet rows.

Part Number & Finish		Description	Shipping Weight lb (kg)
Black	Glacier White		
32995-701	32995-E01	99.3"H (2522 mm) x 40"W (1016 mm), Each	63 (28.6)
32995-702	32995-E02	99.3"H (2522 mm) x 40"W (1016 mm), Pack of 6	228 (103.4)

Note: Steel side brackets are each 2-1/8" (54 mm) wide. Overall width 40" (1016 mm) includes brackets.
