

# Product Cut Sheet

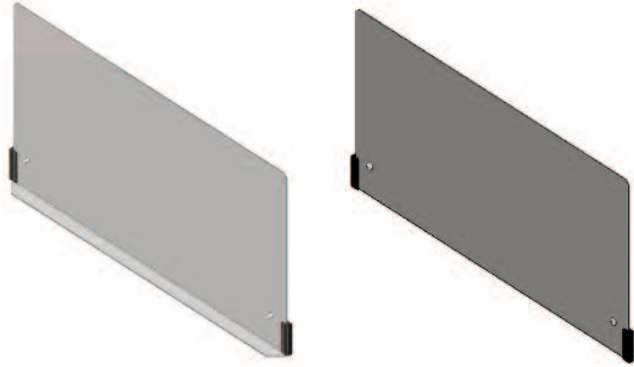

## AISLE CONTAINMENT ADJUSTABLE FILLER PANEL FOR CABINET SUPPORTED HOT AISLE CONTAINMENT

Adjustable Filler Panel is an optional accessory that is combined with the Cabinet Supported Exhaust Duct when cabinets vary in height. The duct is part of a complete Cabinet Supported Hot Aisle Containment (HAC) Solution that vents hot air from an enclosed aisle.

- Use above short cabinets to fill gaps between the top of the cabinet and the Cabinet Supported Exhaust Duct
- Used under the Cabinet Supported Exhaust Duct Panel Kit (See 32820\_CUT)
- Captures and vents hot air from an aisle between adjacent rows of cabinets
- Use as part of a closed return for the air handling system
- Compatible with F-Series TeraFrame® Cabinets and GF-Series GlobalFrame® Cabinets
- Includes vertical and horizontal seals
- Fits snug against the top of the short cabinet and the sides of the adjacent cabinets
- Adjusts in height, available for 6U and 9U cabinet height differences
- Steel panel is painted glacier white or black
- Match to width of cabinet

### Other Components

- Cabinet Supported Exhaust Duct Panel Kit (See 32830\_CUT) – required to form the sides of the Cabinet Supported Exhaust Duct

Use one Adjustable Filler Panel (front and back shown) over any short cabinets in the cabinet row.

Part Number & Finish		Description	Shipping Weight lb (kg)
Black	Glacier White
