AISLE CONTAINMENT CABINET TO FLOOR SEAL KIT FOR F-SERIES TERAFRAME® GEN 3 CABINET, GF-SERIES GLOBALFRAME® GEN 2 CABINET AND N-SERIES TERAFRAME® GEN 3 NETWORK CABINET

Aisle Containment Cabinet To Floor Seal Kits are used at the bottom of cabinets to seal the space between the bottom of the cabinet and the floor when leveling feet or casters are in use. Eliminating this source of bypass airflow is essential due to the high pressure typically experienced in this area.

- Blocks bypass airflow underneath cabinets to prevent leakage from the contained aisle
- Fits snug against cabinets and the floor
- Includes sheet steel covers
- Front and Side Seals are ordered separately
- Use one front seal kit on each cabinet; select to match the overall width of the cabinet
- Use one side seal kit on each cabinet row; select to match the depth of the cabinet/frame
