GT-Series GlobalFrame Gen 2 Equipment Rails

Safety Information

⚠️ **WARNING**: Improper use of this product may lead to serious injury. Read and understand all instructions for proper installation and use of this product.

Intended Use

Install this rack only in a restricted service environment, such as a data center. Use indoors only, in environmentally controlled areas; do not use outdoors, in harsh environments or in air-handling spaces. Use this rack for computer equipment, including servers and peripherals. Allow only qualified service personnel to use this rack.
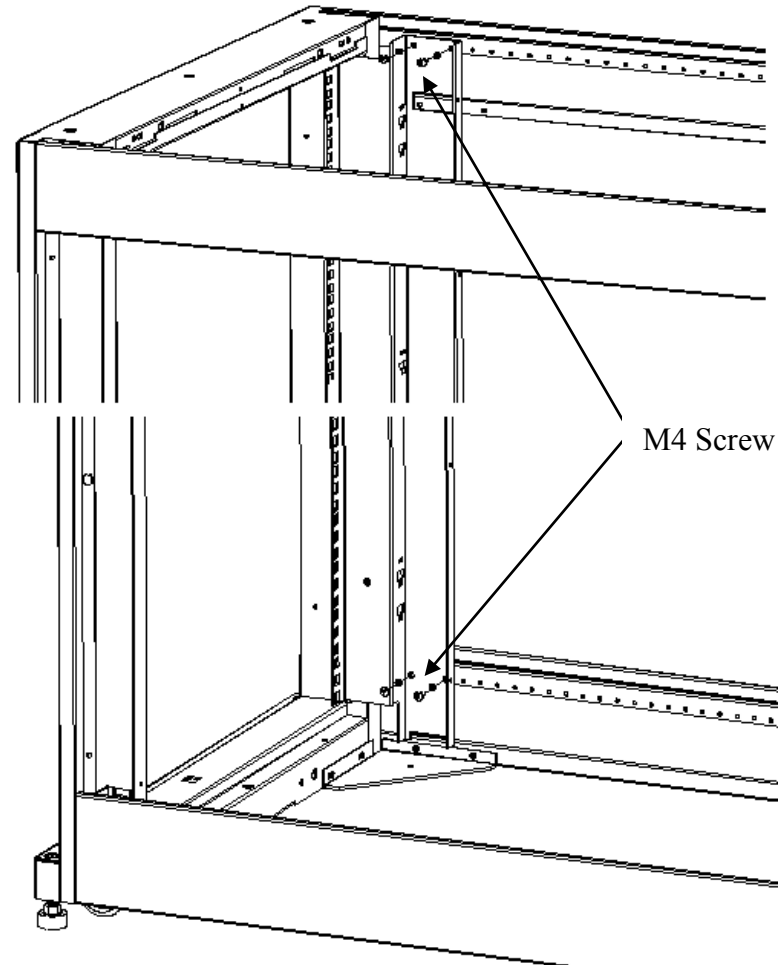

Included Hardware

8 M4X8 Screws

Tools Required

Phillips screwdriver

Assembly Sequence

1. Position the depth of the rails in the cabinet as required for the equipment installation using the two louvers on the top and bottom.

2. Attach each equipment rail to cabinet slides using 4 M5X8 screws.
