

# Product Information Sheet

## INTERNAL AIR DUCT FOR TERAFRAME™ CABINET SYSTEM

A passive duct (no fans) that moves additional cold air from below the raised access floor to the top half of the cabinet to reduce hot spots in medium and high density applications. Adjustable doors direct air to the front of equipment. The duct also blocks airflow around equipment so a separate Air Dam Kit is not required.

- Includes square-punched rails
- Use on access floors only in cabinets without casters
- Up to 210 CFM at .1" or water (356 CMH at .02 kPa) in 600 mm cabinets
- Up to 510 CFM at .1" or water (865 CMH at .02 kPa) in 700 mm cabinets
- UL Listed (File E227626)

For assistance in configuring your TeraFrame Cabinet, contact Technical Support at 800-834-4969 or visit CPI's Product Configurator at [www.chatsworth.com/configurator](http://www.chatsworth.com/configurator).

Note: Uses bottom 2 RMU in the cabinet and reduces rail depth by 64 mm (2.5"). The depth of the cabinet must be 1000 mm if used with side panels.

Part Number			Description	Shipping Weight*
600 mm	700 mm	800 mm		
34470-C02	34470-C14	N/A	For 42 RMU Cabinets	17 lb
