Transition Trays

Transition Trays

The Jumper and Transition Trays aid in compliance with ANSI/TIA/EIA-568B bend radius requirements. Two styles are available to provide upper and lower horizontal/vertical cable management and promote a gradual, controlled bend for both UTP and optical fiber cable. Adjust the position of the bend radius to deliver cables into the vertical cable manager or attach a transition plate between trays to create a solid wire way between racks. Mounting screws not included. Sold individually.

- Provides 1-1/2" (38 mm) bend radius for compliant installation of Category 5e/6/6a or fiber cable
- Telescopes to adjust cable entry or exit position
- Mounts on 19" or 23" rack; may also be wall-mounted
- Strong lightweight aluminum construction

ORDERING INFORMATION

Part Number	Description	Shipping Weight lb (kg)
13183-X19	Upper Tray, 6"D (150 mm)	4 (1.8)
13183-X23	Upper Tray, 6"D (150 mm)	4 (1.8)

X=color: 1=Gray, 5=Clear, 7=Black, E=Glacier White.
