

Adjustable ServerRack and QuadraRack®

The Adjustable ServerRack with EIA Universal square-punched equipment mounting holes support rack-mount server and data storage equipment in data centers or computer equipment.

The Adjustable QuadraRack® with EIA Universal threaded equipment mounting holes support large modular network or voice switches and routers in communications equipment rooms.

Two Mounting Hole Ground Terminal Block

Adjustable Mounting Channels

Self-Squaring Assembly

HCAI OPM-0302

KEY FEATURES

- Stability and strength of a welded steel enclosure in an open four-post frame
- Open design for unrestricted airflow and easy access to equipment and cabling
- Self-squaring assembly with welded front and rear frames reduces assembly time
- Mounting channels adjust in depth to provide front and rear support for equipment
- Maximizes floor space with a minimal rack footprint
- Rack components are bonded together during assembly in accordance with industry standards
- Includes a Two Mounting Hole Ground Terminal Block for easy attachment to the Telecommunications Grounding Busbar
- Choose square-punched or threaded equipment mounting holes
- Rack-mount units are marked and numbered on the mounting channels
- Easy to bay together to create multi-rack configurations
- Use with any CPI Cabling Section to manage cables
- Support large equipment on heavy-duty shelves or on side-mounted Equipment Support Rails
- UL Listed; File E227626; Category NWIN (US), NWIN7 (Canada) - Information Technology and Communications Equipment Cabinet, Enclosure and Rack

SPECIFICATIONS

Description	<ul style="list-style-type: none"> • Four-post frame with square-punched or threaded mounting holes used to support 19" wide rack-mount network, computer server and data storage equipment and shelves • For indoor use only, in environmentally controlled areas; may not be used outdoors, in industrial or harsh environments, or in plenum spaces
Includes	<ul style="list-style-type: none"> - (2) mounting frames - (4) horizontal braces - Assembly hardware - (1) Two Mounting Hole Ground Terminal Block and Antioxidant Joint Compound - Adjustable ServerRack (square-punched mounting holes) includes (25) #12-24 cage nuts and screws. Use Klik-Nut Hardware Kit (sold separately) for easy installation. - Adjustable QuadraRack (threaded mounting holes) includes (50) #12-24 screws - Order installation hardware separately (P/N 40604-003 for concrete floors)
Equipment Support	<ul style="list-style-type: none"> • Front and rear pairs of C-shaped equipment mounting channels • Adjustable depth at assembly, 5.91" (150 mm) front-to-rear in fixed .98" (25 mm) increments • 19" wide, EIA-310-D compliant hole pattern • 1-3/4" (44.45 mm) high rack-mount unit • Universal hole pattern, 5/8"-5/8"-1/2" (15.9 mm - 15.9 mm - 12.7 mm) vertical hole spacing • Adjustable ServerRack has square-punched .375" (9.53 mm) equipment mounting holes • Adjustable QuadraRack has threaded #12-24 equipment mounting holes • Rack-mount units are marked and numbered bottom-to-top on the channels • Order Klik-Nut Hardware Kit for quick installation (sold separately).
Load Capacity	2000 lb (907.2 kg) of equipment, evenly distributed

SPECIFICATIONS

Grounding and Bonding:	<ul style="list-style-type: none"> Rack components are bonded together during assembly in accordance with industry standards (2) ground connections (two pairs of M6 studs on 5/8" centers) are located at the front and rear of the rack on the bottom center of the frame Includes (1) Two Mounting Hole Ground Terminal Block with Antioxidant Joint Compound
Certifications	<ul style="list-style-type: none"> 19"W, EIA-310-D compliant UL Listed; File E227626; Category NWIN (US), NWIN7 (Canada) - Information Technology and Communications Equipment Cabinet, Enclosure and Rack OSHPD Preapproval of Manufacturer's Certification (OPM-0302)
Materials	<ul style="list-style-type: none"> Steel; - Welded front and rear frames, bolted assembly - Shipped unassembled
Finish	<ul style="list-style-type: none"> Epoxy-polyester hybrid powder coat paint available in black, gray, computer beige or glacier white

The Adjustable ServerRack and the Adjustable QuadraRack® provide a sturdy, cost-effective solution for supporting rack-mount network, computer server and data storage equipment in data centers, computer equipment rooms and other IT facilities. Both racks offer the strength and stability of an enclosure in an open four-post frame that provides easy access to equipment and cabling.

Each rack will support up to 2,000 lb (907.2 kg) of equipment. The corner posts are C-shaped equipment mounting channels that provide front and rear support for 19" wide rack-mount equipment or shelves. The front and rear frames are welded to reduce assembly time. Four brackets connect the front and rear corners of the rack. The rack is available in four heights and four depth ranges. The front-to-rear depth of the mounting channels can be adjusted up to 5.91" (150 mm) in depth in .98" (25 mm) increments during assembly. The mounting channels are fixed in place once assembled to surround and protect equipment.

The Adjustable ServerRack has square-punched holes that let you change mounting hardware (Clik-Nut Hardware Kit or standard cage nuts) to match specific computer server and data storage equipment mounting requirements. The Adjustable QuadraRack has threaded mounting holes that make installation time of patch panels, fiber enclosures and network switches shorter. Each rack-mount unit is marked and numbered on the channels making it easy to locate and position equipment. A second set of holes along the sides of the channels lets you add optional side-mounted Equipment Support Rails that use no additional rack-mount space.

The Adjustable ServerRack and the Adjustable QuadraRack can be used in combination with CPI Standard Racks (two-post racks), Cabling Sections (vertical cable managers) and overhead Cable Runway (ladder rack) to support a wide range of equipment storage applications. Attach 6" (150 mm) wide to 24" (600 mm) wide CPI Cable Runway to the top of the rack with a Cable Runway Mounting Bracket. CPI Cabling Sections bolt directly to the side of the channels, and the base of the rack is punched for easy floor attachment.

DIMENSIONS

ORDERING INFORMATION:

Adjustable QuadraRack® and ServerRack, 19"				
1521	19" Adjustable 4-Post Racks			
		Mounting Hole Style	Mounting Channel Depth Range (C) in (mm)	
	1	Square-Punched	15.75 to 21.65 (400 to 550)	
	2	Square-Punched	22.64 to 28.54 (575 to 725)	
	3	Square-Punched	29.53 to 35.43 (750 to 900)

		42.32	1075	42.53	1080	39.04	991.6

Notes:

- There are seven depth settings for each part number as listed in the table.
- Each rack adjusts front-to-rear in depth up to 5.91" (150 mm) in .98" (25 mm) increments.
- Rack mounting channel depth is fixed once assembled.
- Overall Depth (D) is Channel Depth (C) + .21" (5.3 mm).
- Floor Mounting Holes (E) are Channel Depth (C) - 3.28" (83.3 mm).

ORDERING INFORMATION:**Adjustable 4-Post Rack Accessories****Equipment Support Rail**

Attaches to the side of rack and provides a 1.5"W (38 mm) front-to-rear support surface for equipment. Supports 200 lb (90.7 kg) of equipment; includes hardware.

**Extra Heavy Duty Sliding Shelf**

This 2U x 19"W sliding shelf with adjustable depth rear mounting brackets attaches to rack channels set 20.62"W to 32.48"D (525 to 825 mm). Solid surface is 15.5"W x 26"D (393.7 mm x 660 mm), extends 24" (609 mm) and locks in the open and closed positions. Supports 300 lb (136 kg) of equipment.

**Cable Runway Mounting Bracket**

Aligns with the front, rear or side of the rack and supports 6"W to 24"W (150 mm to 600 mm) CPI Cable Runway. S-shaped, steel bracket measures 1.0"H x 3.3"W x 24.4"L (25 mm x 84 mm x 620 mm) and includes mounting hardware.

**Center Rail**

Attach the rails at any point along the side of the rack for adjustable depth. Marked and numbered U spaces simplify equipment installation. Maximum mount depth is 6" (152 mm) less than the channel depth of the rack. 1000 lb (453.6) equipment load bearing capacity when used as an independent pair or rails; rack load remains 2000 lb (907.2) when Center Rail is used as the front or rear pair of four-point mounting solution.

Part Number	Description H x W Height - ft (m)	Shipping Weight lb (kg)
