FIXED SHELF

These specially designed Fixed Shelves are used to support equipment that doesn't have rack-mounted brackets such as modems, CPU's small power supplies, monitors, etc.

Shelves mount to the Universal EIA 5/8" - 5/8" - 1/2" alternating hole pattern of the four vertical mounting rails.

Three depths are offered (18", 24" and 29") to provide clearance for cables, ventilation, power strips, etc. Shelves have adjustable mounting depths of 13" to 24" for the 18" shelf, 17" to 28" for the 24" shelf, and 23" to 39" for the 29" shelf. Available in vented and non-vented styles. Vented shelves are designed to optimize air flow through cabinet. Sold individually.
