KEY FEATURES

- Stability and strength of a welded steel enclosure in an open four-post frame
- Open design for unrestricted airflow and easy access to equipment and cabling
- Self-squaring assembly with welded front and rear frames reduces assembly time
- Mounting channels adjust in depth to provide front and rear support for equipment
- Maximizes floor space with a minimal rack footprint
- Rack components are bonded together during assembly in accordance with industry standards
- Includes a Two Mounting Hole Ground Terminal Block for easy attachment to the Telecommunications Grounding Busbar
- Choose square-punched or threaded equipment mounting holes
- Rack-mount units are marked and numbered on the mounting channels
- Easy to bay together to create multi-rack configurations
- Use with any CPI Cabling Section to manage cables
- Support large equipment on heavy-duty shelves or on side-mounted Equipment Support Rails

APPLICATIONS

- The Adjustable ServerRack with EIA Universal square-punched equipment mounting holes support rack-mount server and data storage equipment in data centers or computer equipment rooms
- The Adjustable QuadraRack® with EIA Universal threaded equipment mounting holes support large modular network or voice switches and routers in communications equipment rooms
- Use with shelves or rails to support large, heavy computer and data processing equipment

USE WITH

- Velocity® Cable Management
- Evolution® Cable Management
- MCS Master Cabling Section
- CCS Combination Cabling Section
- VCS Vertical Cabling Section
- Clik-Nut™ Hardware Kit

RELATED ACCESSORIES

- Universal Horizontal Cable Manager
- Jumper Trays
- Heavy-Duty Equipment Shelves and Rails
- Vertical and Horizontal Power Strips

The Adjustable ServerRack and the Adjustable QuadraRack® provide a sturdy, cost-effective solution for supporting rack-mount network, computer server and data storage equipment in data centers, computer equipment rooms and other IT facilities. Both racks offer the strength and stability of an enclosure in an open four-post frame that provides easy access to equipment and cabling.

Each rack will support up to 2,000 lb (907.2 kg) of equipment. The corner posts are C-shaped equipment mounting channels that provide front and rear support for 19” wide rack-mount equipment or shelves. The front and rear frames are welded to reduce assembly time. Four brackets connect the front and rear corners of the rack. The rack is available in four heights and four depth ranges. The front-to-rear depth of the mounting channels can be adjusted up to 5.91” (150 mm) in depth in .98” (25 mm) increments during assembly. The mounting channels are fixed in place once assembled to surround and protect equipment.

The Adjustable ServerRack has square-punched holes that let you change mounting hardware (Clik-Nut Hardware Kit or standard cage nuts) to match specific computer server and data storage equipment mounting requirements. The Adjustable QuadraRack has threaded mounting holes that make installation time of patch panels, fiber enclosures and network switches shorter. Each rack-mount unit is marked and numbered on the channels making it easy to locate and position equipment. A second set of holes along the sides of the channels lets you add optional side-mounted Equipment Support Rails that use no additional rack-mount space.

The Adjustable ServerRack and the Adjustable QuadraRack can be used in combination with CPI Standard Racks (two-post racks), Cabling Sections (vertical cable managers) and overhead Cable Runway (ladder rack) to support a wide range of equipment storage applications. Attach 6” (150 mm) wide to 24” (600 mm) wide CPI Cable Runway to the top of the rack with a Cable Runway Mounting Bracket. CPI Cabling Sections bolt directly to the side of the channels, and the base of the rack is punched for easy floor attachment.

See reverse for product specifications and ordering information. Please contact CPI Technical Support for configuration assistance.
**Specifications**

- Four-post frame with square-punched or threaded mounting holes used to support 19" wide rack-mount network, computer server and data storage equipment and shelves
- For indoor use only, in environmentally controlled areas; may not be used outdoors, in industrial or harsh environments, or in plenum spaces
- Includes:
  - (2) mounting frames
  - (4) horizontal braces
  - Assembly hardware
  - (1) Two Mounting Hole Ground Terminal Block and Antioxidant Joint Compound
  - Adjustable ServerRack (square-punched mounting holes) includes (25) #12-24 cage nuts and screws. Use Clik-Nut Hardware Kit (sold separately) for easy installation.
  - Adjustable QuadraRack (threaded mounting holes) includes (50) #12-24 screws
  - Order installation hardware separately (P/N 40604-003 for concrete floors)
- Available sizes:
  - See Dimensions and Ordering Information
- Usable equipment space:
  - See Dimensions and Ordering Information
- Equipment Support:
  - Front and rear pairs of C-shaped equipment mounting channels
  - Adjustable depth at assembly, 5.91" (150 mm) front-to-rear in fixed .98" (25 mm) increments
  - 19" wide, EIA-310-D compliant hole pattern
  - 1-3/4" (44.45 mm) high rack-mount unit
  - Universal hole pattern, 5/8"-5/8"-1/2" (15.9 mm - 15.9 mm - 12.7 mm) vertical hole spacing
  - Adjustable ServerRack has square-punched .375" (9.53 mm) equipment mounting holes
  - Adjustable QuadraRack has threaded #12-24 equipment mounting holes
  - Rack-mount units are marked and numbered bottom-to-top on the channels
  - Order Clik-Nut Hardware Kit for quick installation (sold separately).
- Load capacity:
  - 2000 lb (907.2 kg) of equipment, evenly distributed
- Grounding and Bonding:
  - Rack components are bonded together during assembly in accordance with industry standards
  - (2) ground connections (two pairs of M6 studs on 5/8" centers) are located at the front and rear of the rack on the bottom center of the frame
  - Includes (1) Two Mounting Hole Ground Terminal Block with Antioxidant Joint Compound
- Certifications:
  - 19"W, EIA-310-D compliant
- Material:
  - Steel
- Construction:
  - Welded front and rear frame, bolted assembly
  - Ships unassembled
- Finish:
  - Epoxy-polyester hybrid powder coat paint available in black, gray, computer beige or glacier white

Notes:
1. There are seven depth settings for each part number as listed in the table above.
2. Each rack adjusts front-to-rear in depth up to 5.91” (150 mm) in .98” (25 mm) increments.
3. Rack mounting channel depth is fixed once assembled.
4. Overall Depth (D) is Channel Depth (C) + .21” (5.3 mm).
5. Floor Mounting Holes (E) are Channel Depth (C) - 3.28” (83.3 mm).
### Adjustable Server Rack and Quadrarack ™ Accessories

#### Solid and Vented Shelves
- Support heavy peripheral equipment in the Adjustable Server Rack or Quadrarack.
- 19" W x 1U shelf with adjustable depth rear mounting brackets.
- Supports 200 lbs (90.7 kg) of equipment.
- Solid or vented support surface; 17.88" W (449.1 mm) wide.
- Made of steel; Includes assembly hardware.

#### 32" Deep Sliding Shelf
- 19" Wide x 2U sliding shelf with adjustable depth rear mounting brackets.
- Attaches to rack channels set 36.42" (925 mm) to 38.39" (975 mm) deep.
- Supports 160 lbs (72.5 kg) of equipment.
- Solid or vented support surface is 15.5" (393.7 mm) wide by 32" (812 mm) deep.
- Shelf extends 32" (812 mm) and locks in the open and closed positions.
- Made of steel and available in gray, computer beige and black.

#### Center Rail
- One pair of 19"W mounting rails with square-punched or threaded equipment mounting rails.
- Adjustable depth - attach the rails at any point along the side of the rack.
- Marked and numbered rack-mount spaces simplify equipment installation.
- 1,000 lb (453.6 kg) equipment load bearing capacity when used as an independent pair or rails; rack load remains 2,000 lb (907.2 kg) when Center Rail is used as the front or rear pair of a four-point mounting solution.
- Maximum mount depth is 6" (152 mm) less than the channel depth of the rack.
- Made of steel, includes installation hardware.

#### Equipment Support Rails
- Provide additional support for heavy rack-mount equipment.
- Attaches to the side of Adjustable Server Rack or Adjustable Quadrarack.
- Extends to match the depth of the rack.
- Provides a 1.5" (38 mm) wide front-to-rear support surface for equipment.
- Does not interfere with rack-mount space.
- Supports 200 lbs (90.7 kg) of equipment.
- Includes assembly and installation hardware.

#### Cable Runway Mounting Bracket
- The Cable Runway Mounting Bracket attaches CPI Cable Runway to the top of the rack.
- Supports 8" (150 mm) wide to 24" (600 mm) wide CPI Cable Runway.
- S-shaped bracket is made of steel.
- Measures 3.3" (84 mm) wide by 1.0" (25 mm) high by 24.4" (620 mm) long.
- Includes installation hardware.

#### Clik-Nut Hardware Kit
- Use for easier, faster and safer installation.
- No tools required.
- Multiple thread sets available (M6, 12-24, 10-32).
