

NEW CATALOG ITEM

BENEFITS:

- Features keyboard with full-size keys for comfortable typing.
- Includes built-in trackpad, eliminating the need for a mouse and separate tray.
- Requires only 1 RMU, maximizing valuable rack or cabinet space.
- Slides into the cabinet or rack when not needed.
- Available for two-post and four-post systems.

KEYBOARD+TRAY

Type Comfortably While Saving Space

Chatsworth Products, Inc. (CPI) announces its new Keyboard+Tray. Incorporating maximum functionality and space-saving design, the IBM-compatible (PC, XT, AT and PS/2) keyboard and tray requires only 1 RMU of space, yet the unit's full-size keys ensure comfortable typing.

In addition, the Keyboard+Tray contains a built-in trackpad, eliminating the need for a mouse and separate tray. (No more mouse tails getting in the way). When not needed, the shelf easily slides into your rack or cabinet.

The Keyboard+Tray has two PS/2 standard connectors – one keyboard, one mouse. It comes fully assembled. Available for two-post and four-post systems.

As the perfect complement to the Keyboard+Tray, CPI's new 15" LCD Monitor Shelf features an innovative rotating design and requires less than 2 RMU of space.

For more information, please contact your authorized CPI Distributor or a CPI Customer Service Representative, or go to www.chatsworth.com

The new LCD Monitor Shelf is sold separately
