

Product Cut Sheet

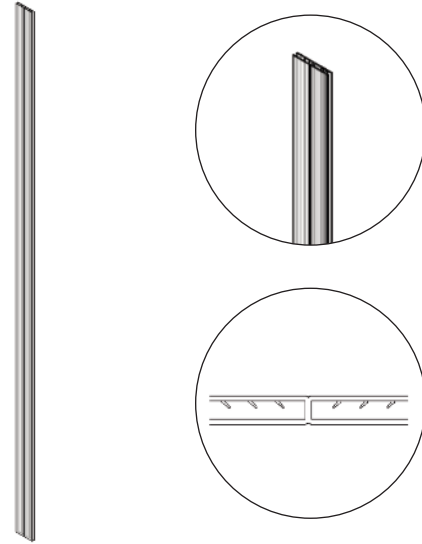

AISLE CONTAINMENT CABINET SUPPORTED EXHAUST DUCT H-SEAL

Cabinet Supported Exhaust Duct H-Seal is one of several components that are combined to form an exhaust duct over two adjacent rows of CPI Cabinets. The H-seal is part of a complete Cabinet Supported Hot Aisle Containment (HAC) Solution that vents hot air from an enclosed aisle.

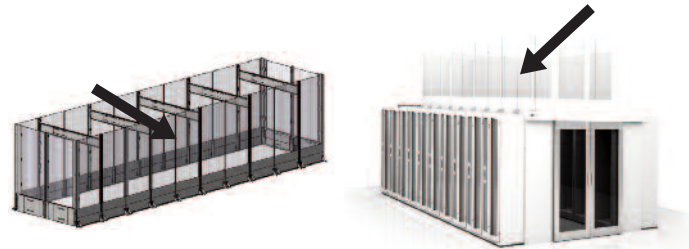

- Used to splice and seal the gap between the translucent duct panels on adjacent Aisle Containment Cabinet Supported Exhaust Duct Panel Kits (see 32830_CUT)
- Typically used every other panel, not required if the Cabinet Supported Exhaust Duct Support Beam (see 32820_CUT) is used between the adjacent Aisle Containment Exhaust Duct Panel Kits
- Clear, PVC with H-shaped profile; slips over translucent duct panels to form a splice/seal
- 4'L (1.2 m), 48"L (1220 mm) sections; sold in 2 pack or in a 10 pack

Other Components

- Cabinet Supported Exhaust Duct Panel Kit (See 32830_CUT) – required to form the sides of the Cabinet Supported Exhaust Duct
- Cabinet Supported Exhaust Duct End Panel Kit (See 32850_CUT) – required to form the ends of the Cabinet Supported Exhaust Duct
- Cabinet Supported Exhaust Duct Horizontal Beam Support (See 32820_CUT) – required every other cabinet to provide lateral support for the Cabinet Supported Exhaust Duct
- Aisle Containment Exhaust Duct Edge Seal (See 32836_CUT) required along the top of the Cabinet Supported Exhaust Duct to seal the gap between the duct and the drop ceiling tiles
- Adjustable Filler Panel (See 32825_CUT) – optional panel used to fill the gap between any short cabinets and the Cabinet Supported Exhaust Duct. Sized to match CPI Cabinet widths

Use one Cabinet Supported Exhaust Duct H-Seal (shown) between every other cabinet along the contained aisle to splice and seal the translucent panels that form the duct.

The images above show a completely assembled Cabinet Supported Exhaust Duct removed and installed on a row of cabinets. Cabinet Supported Exhaust Duct H-Seals (eight shown) seal gaps between the Exhaust Duct Panel Kits along the sides of the Cabinet Supported Exhaust Duct. The Exhaust Duct also includes Exhaust Duct End Panel Kits, Support Beams and Edge Seals.

Part Number & Quantity		Description	Shipping Weight lb (kg)
2 Pack	10 pack		
32835-000	32835-001	4'L (1.2 m), clear plastic	20 (9.1)

Note: Shipping Weight is for the 10 Pack. Additional components are required to form a complete Cabinet Supported Exhaust Duct.
