AISLE CONTAINMENT CABINET TO FLOOR SEAL KIT FOR GF-SERIES GLOBALFRAME® GEN 1 CABINET

Aisle Containment Cabinet To Floor Seal Kits are used at the bottom of cabinets to seal the space between the bottom of the cabinet and the floor when leveling feet or casters are in use. Eliminating this source of bypass airflow is essential due to the high pressure typically experienced in this area.

- Compatible with GF-Series GlobalFrame® Gen 1 Cabinets (On GF-Series GlobalFrame Gen 1 Cabinets the leveling feet attach to a threshold under the door, and the top panel has cable knockouts and round grommets.)
- Blocks bypass airflow underneath cabinets to prevent leakage from the contained aisle
- Fits snug against cabinets and the floor
- Includes sheet steel covers
- Front and Side Seals are ordered separately
- Use one front seal kit on each cabinet; select to match the overall width of the cabinet
- Use one side seal kit on each cabinet row; select to match the depth of the cabinet/frame

GF-Series GlobalFrame Gen 1 Cabinet

Cabinet To Floor Seal Kit For GF-Series GlobalFrame® Cabinet			
Part Number & Finish		Description	Shipping Weight lb (kg)
Black	Glacier White		
Front Seal Kits			
32810-700	32810-E00	For a 23.6"W (600 mm) Cabinet	3 (1.4)
