

Installation Instructions

4" Round Raised Floor Grommet (13874-00X)

Cutting Raised Floor Tiles:

Observe raised floor tile manufacturers' recommendations with regards to cutting procedures, load capacity, and any additional floor support requirements for cutting a raised floor tile.

Tools Required:

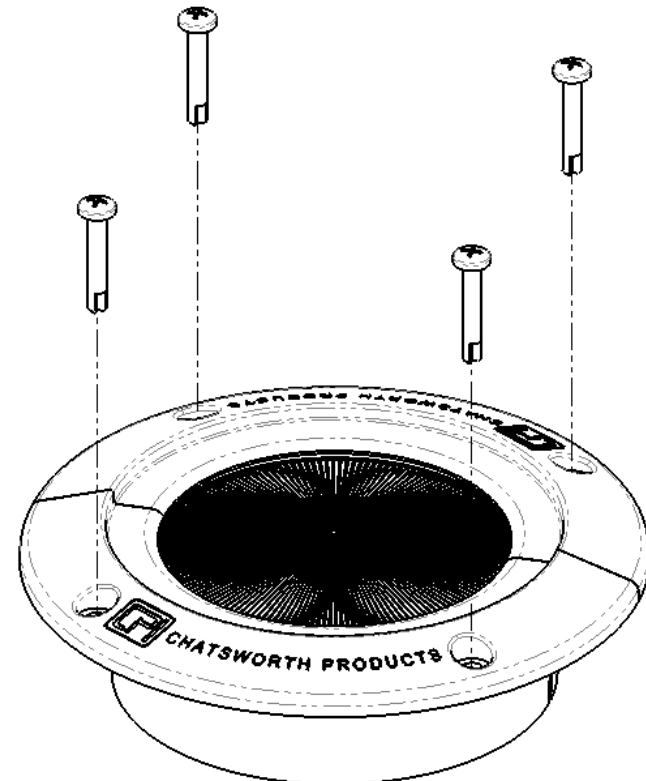

Phillips-head screwdriver
Cutting tool (per floor tile recommendations)
Drill and 9/64" drill bit (optional)

Included Hardware:

4 each #8 x 1" self-drilling screw

Installation Steps:

1. Make a 4" (102mm) diameter cutout in the desired location in the floor tile.
2. Remove any burrs from the cutout and test fit the Raised Floor Grommet to verify fit. Modify cut, if needed.
3. With the Raised Floor Grommet properly placed in the cutout, secure it to the raised floor tile using the supplied #8 self-drilling screws. In some raised floor tile designs, drilling a 9/64" pilot hole will aid installation.
