

Alternate Space Cable Runway

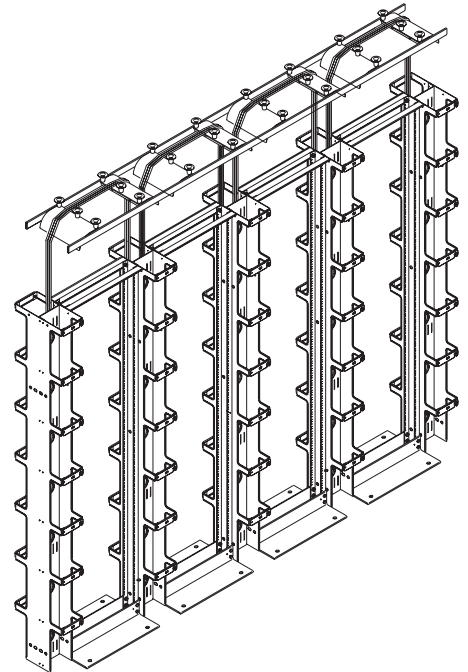

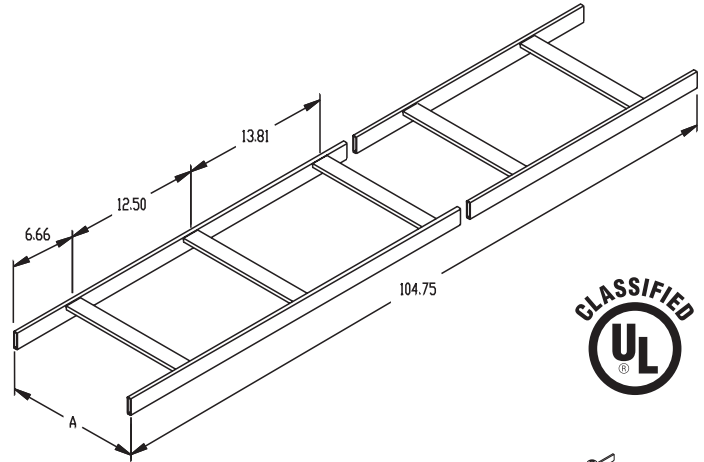

Alternate Space Cable Runway

Designed specifically for use over 19" wide racks (CPI Series 55053, 46353, or 66353) and 6" wide Double-Sided Vertical Cabling Sections (CPI Series 11729).

A single 104.75" long space will transition a row of four racks and five cabling sections (as shown lower left).

- Runway cross-members are spaced to simplify horizontal to vertical alignment of Cross Member
- Radius Drops

Eliminates additional hardware, time-consuming field fabrication, and complicated adjustments required with traditional products

ORDERING INFORMATION

Part Number	Width (Dim. A) in (mm)	Shipping Weight lb (kg)
31472-X06	6" (150)	17 (7.9)
31472-X12	12" (300)	24 (11.1)
