

# Driving Excellence in Data Centers and Semiconductor Manufacturing

Chatsworth Products (CPI) is a 100% employee-owned company dedicated to providing innovative, scalable, and reliable infrastructure solutions for data centers, enterprise networks, and industrial environments. With a history of precision engineering and a global presence, CPI is a trusted partner for businesses seeking to optimize their technology investments.

## Core Capabilities and Product Categories

CPI's comprehensive solutions are designed to meet the evolving needs of modern infrastructure with innovation and quality at their core. Key product categories include:

- **Cabinet and Rack Systems:**  
Featuring the ZetaFrame® Cabinet System, engineered for optimal airflow, high-density power integration, and customizable configurations.
- **Power Distribution and Management:**  
eConnect® PDUs offer intelligent power monitoring, high-density capacity, and energy optimization.
- **Cable Management:**  
Solutions that enhance airflow, accessibility, and organization for high-performance operations.
- **Thermal Management:**  
Industry-leading air containment and liquid cooling systems for maximum cooling efficiency and cost reduction.
- **Wireless Solutions:**  
Advanced enclosures and mounting solutions for secure and efficient wireless network operations.

## Expertise in Semiconductor Manufacturing

CPI brings decades of expertise in addressing the unique challenges of semiconductor manufacturing. From cleanrooms to sub-fab environments, CPI's scalable and modular solutions ensure precision, compliance, and adaptability. Our products deliver robust performance and sustainability to meet the demands of this highly specialized industry.

## Proven Success

CPI has a proven track record of success with clients across industries, including semiconductor manufacturing. Our global network and commitment to quality have positioned CPI as a leader in delivering tailored solutions that drive operational excellence. Notable achievements include:

- Industry-leading load capacity cabinet designs supporting up to 5,000 lb (2268 kg) static and 4,000 lb (1814 kg) dynamic loads.
- Recognition for sustainable practices, including products that prioritize recyclability and energy efficiency.
- Seamless integration of custom configurations and factory pre-installation services, reducing deployment time and costs.

## Why Choose CPI?

- **Customization and Flexibility:**  
Tailored solutions to meet specific requirements.
- **Global Presence:**  
Offices and manufacturing facilities worldwide ensure accessibility and fast delivery.
- **Sustainability Commitment:**  
Responsible manufacturing processes and energy-efficient designs.
- **End-to-End Support:**  
From planning to execution, CPI's team provides comprehensive service and expertise.

## Contact Us
