# CUBE-iT<sup>®</sup> Wall-Mount Cabinet with Integrated Power Solutions

Chatsworth Products' (CPI) CUBE-iT<sup>®</sup> Wall-Mount Cabinet is a secure, highly functional and attractive solution for protecting information and communications technology (ICT) equipment inside and outside of the traditional telecommunications room.

CUBE-iT Wall-Mount Cabinets can also be outfitted with horizontal rack-mounted power strips or UPS battery backup, and feature a three-part swing-out design that allows easy access to the front or rear of the cabinet, rear of the cabinet, along with:

## Modern, sleek design

A modern, sleek design and range of optional fan kits make the cabinet ideal for use in open offices, conference rooms, classrooms, healthcare facilities, or any public area where floor space is limited.

## High load rating

The cabinet provides exceptional strength and rigidity with a UL<sup>®</sup> Listed load rating of 300 lb (136 kg).

## Ability to Retrofit

The rear panel features removable panels with a rectangular knockout, perfect for retrofit applications over existing equipment and cabling.

**A sleek, secure solution  
for telecommunications  
rooms and public spaces**

**Take advantage  
of fast lead times  
and ample  
product inventories!**

## Integrated Power Solutions

Enjoy both protection and power support with the option to include rack-mounted power strips or UPS battery backup from CPI.

- Power Strips distribute basic, single-phase power to equipment from a single power connection and provide optional features for local metering.
- CPI UPS solutions provide long-lasting, lithium-ion battery backup for power protection.

## Low-Decibel Fan Option

A low-decibel (31 dB), dual-fan option provides quiet operation while keeping active equipment cool, making CUBE-iT Wall-Mount Cabinets ideal for use in areas where noise will be a disturbance.

## Full Range of Cable Management Features

CUBE-iT Wall-Mount Cabinets are copper- and fiber-ready.

- The rear panel is prepunched with conduit knockouts and has interior cable attachment points for accessory rack-mount brackets.
- Sides of Equipment Mounting Rails (included) feature multiple tie-down slots; rear panel features tie points for securing cable slack.
- Vertical Lashing Bracket secures multiple cable bundles along the sides of the cabinet.
- Vertical Cable Management section allows management of patch cords or cables at each rack-mount unit.

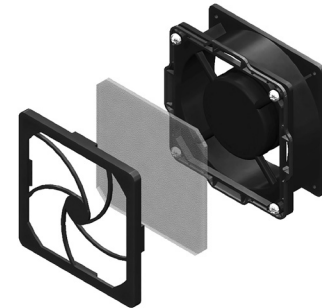

## Quick Availability and Installation

CPI is proud to offer competitive lead times and robust inventory for CUBE-iT Wall-Mount Cabinets, while the cabinet's hinge design allows the installer to remove the center chassis from the rear panel for easier installation on the wall. The integrated bonding feature also provides convenience and reduces installation time.
