Basic eConnect® PDUs

Basic eConnect® PDUs provide reliable power distribution in high-density applications where no power monitoring is required.

KEY FEATURES

Resistance to High Temperature – Market-leading temperature ratings of up to 149°F (65°C) ensures reliability when mounted toward hot aisles.

Simplified Load Balancing – Phase-balance outlets on three-phase models ensure equal loading across all phases; allows use of shorter equipment power cords for better cable and airflow management.

No Accidental Disconnections – Patented, low-profile locking outlets prevent accidental disconnections without requiring special cords.

QuadLock Outlets – Select configurations with outlets that function as C13/C19 or their high-temperature C15/C21 variants simplify PDU selection, enhance deployment flexibility, and ensure future-proofing.
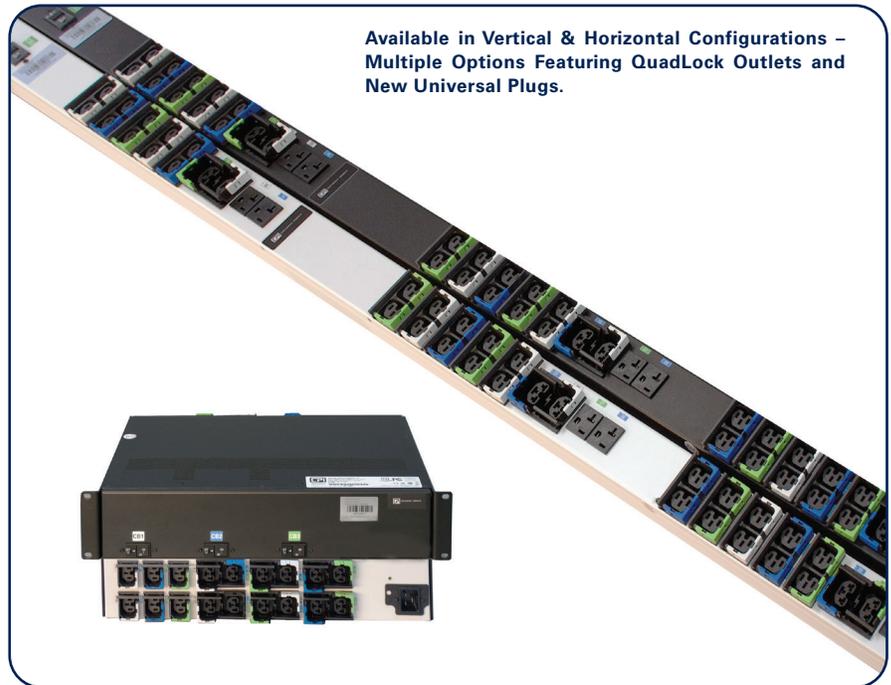

Easy Identification of Failover Unit – Redundancy Pack includes 2 PDUs (one in Black and one in Glacier White) for easy identification of the primary and secondary unit.

Latest UL Compliance – Meets UL and IEC 62368 for compliance with new listing requirements for North America and the European Union.

Cabinet Preinstallation – Complete ecosystem ships ready for IT equipment integration, and saves deployment time and reduces packaging waste.

High Power Configurations – Configurations supporting up to 100A Input provide an optimized solution for GPU & AI based applications. 30A branch circuit breakers provide flexibility when plugging high power IT equipment.

Universal Input – A single PDU design with detachable input cords supports global AC power standards, streamlining procurement, reducing inventory complexity, accelerating deployment, and ensuring reliable high-power performance across worldwide data centers.

Available in Vertical & Horizontal Configurations – Multiple Options Featuring QuadLock Outlets and New Universal Plugs.

Additional Features:

• Breaker and outlet groups are color-coded in multi-breaker units for easy identification

• Universal tool-less mounting features

• Customization capabilities: outlet configurations, color options, power cord length, input connection types and more

• Patent: chatsworth.com/patents

• Made in the United States; TAA compliant; BAA COTS compliant *(applies only to standard configurations with E0-1xxx-x SKUs)*
