

CHATSWORTH  
PRODUCTS

## Get to Know: Chatsworth Products (CPI)

Chatsworth Products (CPI) is more than just a global manufacturer of products and solutions that protect our customer's investments in information and communications technology for IT, wireless and industrial automation applications. We're a 100% employee-owned, U.S.-based organization that's building a better digital future—one rack, cabinet and PDU at a time.

And while CPI products and solutions populate a good portion of the physical backbone to the world's digital infrastructure, it's CPI's Employee Owners—our people—that make the difference.

### 100% Employee-Owned

CPI began in 1991 when 90 employees joined together and bought out a portion of the Dracon Division of Harris Corp. using an Employee Stock Ownership Plan (ESOP). More than 30 years later, CPI continues to thrive under this unique, privately-held corporate structure, remaining fiercely independent and successful in an industry typically dominated by mergers, acquisitions and IP takeovers.

Through CPI's ESOP structure, all employees become beneficial owners. Such ownership, combined with CPI's inclusive and participatory culture, motivate employees to think and act like owners, creating a strong commitment to our core purpose: delighting the customer.

### Decades of Sustained Growth

Fueled by employee ownership, CPI has grown from a single location serving the domestic U.S. market, to a global company serving international customers from our current locations in:

- Simi Valley, CA – Global Headquarters
- Georgetown, TX – Research, Development & Training
- Round Rock, TX – Electronics & Software Technology Center
- New Bern, NC – U.S. East Coast Manufacturing & Operations
- Toronto – Global Sales Office & Showroom
- Mexico City – Global Sales Office & Showroom
- Buckinghamshire, England – Global Sales Office & Showroom
- Pudong, Shanghai – Global Sales Office & Showroom
- Dubai, United Arab Emirates – Global Sales Office & Showroom
- Doha, Qatar – Global Sales Office

## Groundbreaking, Patented Industry Innovations

Chatsworth Products and its Divisions, which include the wireless infrastructure experts at Oberon and the Canadian-based IT infrastructure manufacturing of R.F. Mote, have received numerous patents—over 100 to date in multiple countries—for groundbreaking product designs that have become staples within the ICT industry, including:

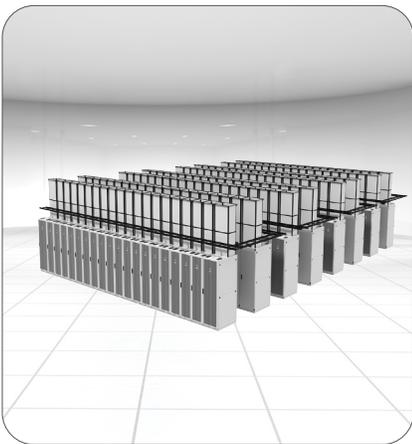

- ZetaFrame® Cabinet System
- Motive® Cable Manager
- CUBE-iT® Wall-Mount Enclosure
- eConnect® Power Distribution Units
- Clik-Nut® Hardware Kit
- Wi-Tile™ Wireless Access Point Enclosure

## Providing a Foundation to Digital Transformation

Through a global network of distributors, value-added resellers, integrators and other industry partners, CPI and its Divisions, serve the needs of customers seeking complete technology infrastructure ecosystem products and solutions for all walks of industry, including:

- Data Centers
- Hyperscale
- Hospitality
- Manufacturing
- Telecommunications
- Healthcare
- Banking & Financial
- Insurance
- Enterprise Networking
- Education
- Wireless
- Transportation
- Multitenant Data Centers
